

Coronavirus (COVID-19) action plan at Fairview Lifestyle Village

With the current situation relating to the Coronavirus (COVID-19) pandemic and the New Zealand government's announcement of extended precautions to prevent the spread of COVID-19, the Board and Management at Fairview Lifestyle Village have implemented a number of actions to help protect our residents and staff.

Our proposed new measures include:

- Open days are cancelled until further notice.
Should you wish to visit please phone 0800 102 662 for an appointment.
- We are planning to have the front gates to Fairview Lifestyle Village monitored by a security person from 6.00am to 10.00pm every day, and anyone entering the village will be asked relevant questions to ensure they are well upon entering the village; have not travelled overseas in the last 14 days; have not been in contact with someone with COVID-19; and are not living with someone who is in self-isolation. We will advise when this is in place.
- Anyone who does not meet the Ministry of Health's criteria will not be allowed to enter the village.
- The front gates are closed from 10.00pm to 6.00am every day. The only people allowed to enter between those times are residents or staff.
- No visitors are allowed in for meals or to stay overnight without the express permission of the village manager.

- All visitors are excluded from the Level 2 and 3 communal areas.
- We ask that all non-essential visits to village residents are put on hold.
- No visitors or family to be isolated in the village in a resident's home.
- No events will be held in the village that involve non-residents.

At Fairview Care the following will also apply:

- No visitors are allowed to enter Fairview Care without the prior permission from the Clinical Lead or Care Manager. If they are both off site, then the duty Registered Nurse will be available.
- Under exceptional circumstances, visitors are allowed access to Fairview Care as long as they meet the Ministry of Health's criteria.
- Contractors will only be allowed in at the discretion of the Care Manager.

These measures might seem strict but we cannot put any of our residents at risk of contracting COVID-19.

The Fairview Lifestyle Village team thanks you for your cooperation and support. Our residents' health and safety is our top priority, and we will be constantly reviewing these plans to keep everyone safe.
